

Combined wedge hot-air welding machine

- small, lightweight and very robust
- drive and blower brushless
- for thin material and welding overhead
- simple usage
- stepless adjustment of all welding parameters and airflow
- weldable material: PE-LD, PE-HD, PVC-P, PP, ECB, EVA, TPO

Technical Data:

Voltage: 230/120V

Frequency: 50/60Hz

Power: 2300W

Temperatur: max 550°C

Pressure: max. 1000N

Dimensions seam: 15 – 15 – 15mm

Dimensions machine: 370x340x330mm (lwxhxh)

Weight: 9kg
